

Research

Examples of the Student Clubs System:

1. The University of Adelaide
2. The University of South Australia
3. The University of Sydney

Web pages and detailed discussions:

- **The University of Adelaide:**

Student Clubs page: <https://www.adelaide.edu.au/clubs/>

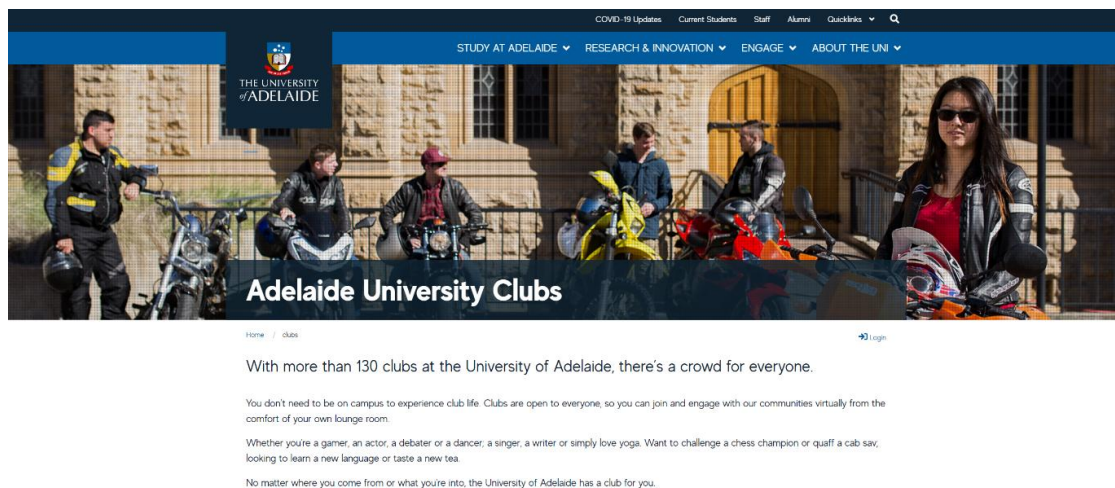

The club system “YouX” - “Find a club”: <https://youx.org.au/interests/clubs/>

The users can search for student clubs on the university website. Also, the users can find the club’s information about the University of Adelaide in the main club system “YouX”.

Advantages:

The users can search clubs’ information in the university system and then be **redirected** to the **club system “YouX”**. The two separate systems link each other and work well. In addition, the university club page has some **introductions** and an **video** to show their features.

Adelaide University Clubs Home Page with navigation menu and introduction:

YouX – Clubs page:

Welcome to YouX Clubs!

Find your people. Join a club. ♣

Here at YouX, we love clubs! Our team is here to help facilitate over 160 clubs so they can autonomously function and thrive.

Whether you're a new student, returning student, international student or exchange student, joining a club is one of the best ways to find friendship and fulfilment at the University of Adelaide.

Looking for a particular club? Or just to browse and see what clubs we have on campus? Check out our [Clubs Index](#).

[Download the 2023 Clubs Guide](#) if you have any questions about running a club, including:

- Who the Club Committee are and what they do
- How to become a new Club
- How to manage your existing Club (grants, re-registration, running meetings & committee roles)

“Find a club” on the Adelaide University Clubs page links to “YouX” & introduction video:

Find a club [↗](#)

We have cultural and religious clubs, political and cause-based clubs, activity and hobby clubs, as well as clubs aligned to courses and faculties at the University of Adelaide.

The “YouX” home page shows the “**YouX**” logo, a **search bar**, a **login link**, a dropdown navigation **menu bar**, recent **events**, four **quick links**, and an **introduction video**.

The screenshot displays the YouX website's home page. At the top, a dark navigation bar features the YouX logo on the left, a search bar with a magnifying glass icon and a 'Log In' link on the right, and a horizontal menu with links: Home, About, Your Membership, Your Support, Your Interests, Your Development, and Your Voice. Below the navigation bar is a large hero section with a black background. On the left, a colorful 'CREATE SERIES' logo is positioned above a blue box containing the text 'POETRY SLAM! LEARN THE RHYTHM OF SPOKEN WORD 12 - 3PM | 17 MAY'. To the right, the text 'YouX Poetry Slam!' is displayed, followed by a description of a free workshop with poet Tracy McNally. A 'More' button is located below the text. Below the hero section, a 'Quicklinks' section titled 'Discover' contains four icons: a gift box for 'Become a Member', two hands holding graduation caps for 'Contact Student Care', a piggy bank with dollar signs for 'Contact Student Employment', and a club symbol for 'Join a Club'. At the bottom left, a 'Welcome to YouX' section titled 'Make uni yours' includes a paragraph about the University of Adelaide's history and a 'More' button. On the bottom right, a video player shows a man and a woman smiling, with a red play button in the center. The video player includes a 'Share' button and a '1/1' indicator.

A specific club website has a **description** of the club and a block of “**contact us**” to link the club’s social media.

180 Degrees Consulting – Branch club page view:

About Us

What do we do?

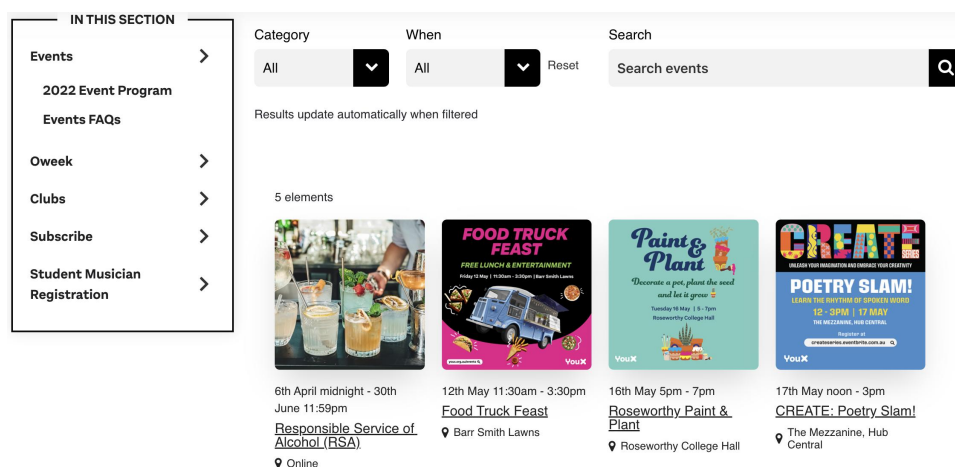

We carefully select the world's top university talent, provide them with professional training and mentoring, and then match them with non-profits that have applied for assistance based on their expertise, interests, and abilities. They then work as volunteers in teams to develop in-depth solutions to the challenges the non-profits face. This is mutually beneficial. Our consultants develop transferable skills, engage in experimental learning, become engaged citizens, improve their entrepreneurial abilities, and develop as leaders. Non-profits receive assistance they otherwise couldn't afford.

Who do we look for?

Contact Us

Events page is similar to Clubs page:

The **login** page is divided into two parts: one for the University of Adelaide **students and staff** with a link “Log In Here” to **redirect** to the University of Adelaide login page, and another for **guests**. The students and staff must supply students ID and staff ID respectively, with a password. The guests are required to have a membership card with a user-defined username and password to log in.

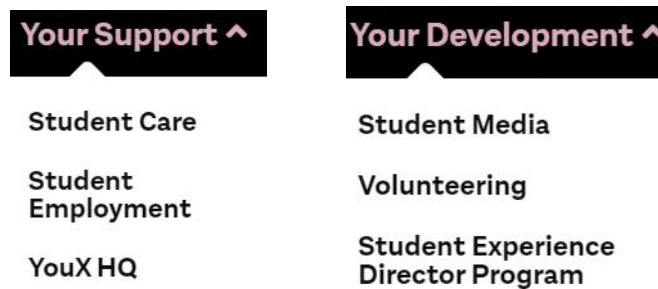

Login page view:

Guests without an account can also view the complete club list and information.

Disadvantages:

“**YouX**” is a completed student union that contains multiple functions such as “Your Support”, “Your Development”, and so on. However, the parts are not directly related to the club since the student club system is embedded into this student union system. Therefore, it provides too much information for users who merely focus on the clubs.

“Your Support” and “Your Development” menu elements:

The users cannot directly visit the full clubs’ list from the “YouX” home page. Instead, the navigation is “**Home page**” -> “**Your Interests**” -> “**Clubs**” -> “**Find a Club**”. The users who visit “Find a club” through the university club page can avoid this problem, but others not. The “Clubs” page shows guidance and a section. It is detailed but less efficient.

“Your Interests” elements with Events and Clubs:

A specific club's website contains information about the club, events, and social media. It mainly shows the links to some resources for users to download. It also includes a block called "Join the Club" for the users who have logged in to join the club directly.

Anime club:

Anime Student Society

Do you like anime or wish to watch it? If that's the case, this is the club for you! Join us on a regular basis to watch anime!

About us

Information

The Anime Student Society will be a club where students gather to watch anime on a regular basis. Not only that but there will be a discord created where members can discuss topics related to anime or manga. Students that I hope will join this club are people interested in anime and looking to meet new people. Sometimes, interests can be niche and the aim of this club is for people to meet each other and have fun. Activities include going to cinemas, anime conventions and weekly watching of anime. If you are interested, you can find us at HH4-08 at 5:30pm. See you there!

The USU acknowledges the Gadigal people of the Eora Nation, upon whose stolen land which we operate, gather as employees and live. We recognise this land was never terra nullius — the land belonging to these peoples was never ceded, given up, bought or sold. We pay our respects to Aboriginal Elders past, present and emerging, and we extend this acknowledgement to any other Aboriginal and Torres Strait Islander people.

Accounting Society

The Accounting Society (ASOC) is the only accounting-specific student society at the University of Sydney, comprising over 1200 students from diverse backgrounds within Business.

Our Society's mission is to promote a greater awareness of accounting related careers by being the most accessible, innovative and rewarding society for business students. We help our members prepare for the workforce through hosting events such as professional development workshops, networking sessions and speaker panels, just to name a few. However, we don't only talk about accounting!

ASOC is also committed to improving the student experience of members. We hold a number of social events to make the Uni experience fun and enjoyable! At ASOC, we want you to be yourself, have fun, and thrive in university! What are you still waiting for? Join us today by signing up to be an ASOC member for free!

Disadvantages:

The dimensions are not suitable for the web page. Several websites contain posters and significant description words that are too large, so these web pages seem separated by posters and large words, and the contents cannot pop out together. It adds an operation for users to scroll down to check the rest of the page. But the mobile page shows well.
